If you are looking for help with Vehicle Security, SDRM, or a scan tool asking for a NASTF login use [support@sdrm.nastf.org](mailto:support@sdrm.nastf.org)

If you are looking for help with any other NASTF related question please use [support@nastf.org](mailto:support@nastf.org)

Thanks for alerting us when you run into problems. Please help the entire NASTF community by letting us know where trouble exists: [Click Here](#)

### HEADLINES

#### NASTF Announces Schedule for Fall General Meeting in Las Vegas

Our general meeting will take place on November 6th, 2019 at the Sands Expo Convention Center in concurrence with AAPEX. AAPEX registration is NOT required to attend the NASTF general meeting sessions.

NASTF has had an unprecedented year on multiple fronts. Team updates alone will be worth the trip to Vegas. Come hear about what NASTF is doing to protect your business and make it easier to do your job.

#### Featured presentations include:

- **Bob Augustine, Drew Technologies, ADAS is not a thing**  
- Hear from one of the industry's leading experts on why the industry needs to adjust its focus
- **NASTF's Registry Management Team**- Learn about the

#### What is SDRM and the vehicle professional Registry

The NASTF Vehicle Security Professional (VSP) Registry is a service created from the NASTF Secure Data Release Model (SDRM), a project of the NASTF Vehicle Security Team. SDRM is a data exchange system conceived and designed cooperatively by automakers, the independent repair, insurance and law enforcement communities; it allows the aftermarket to access security sensitive information related to automobiles, i.e. key codes, PIN numbers, immobilizer reset information, and similar types of information. The NASTF VSP Registry program allows access to security-related information while protecting the safety and security of consumers and the integrity of automobile security systems.

USA and Canadian locksmiths and automotive technicians qualified in vehicle security system repairs need a subscription to the NASTF VSP Registry in order to purchase security codes and VIN-specific computer files directly from the OEM/automaker. Most automakers/OEMs make this information available instantly from their websites 24/7/365.

## Welcome to SDRM 2.0!

Welcome to the NASTF Vehicle Security Professional Portal. This portal serves credentialed security professionals and those wishing to apply for a Vehicle Security Credential (VSC). The Data you will be accessing belongs to the vehicle owner. By agreement with NASTF and participating automakers you are given access under certain conditions. Every use of this site is governed by the agreement you signed. Violations of that agreement will result in suspension and possibly permanent revocation of your security credential

Need to download Authy for Two-Factor?

## Two-Factor Instructions

The SDRM program uses two-factor security to ensure that you are the only user that can access your account in the SDRM portal.  
If you already installed the Authy App, please take the following steps

1. Open the Authy App on your mobile device
2. Select NASTF
3. Enter the NASTF pin.

Please note: The pin will expire, so the login must occur within 30 seconds or a new pin will be generated
